EXPERIENCE

Senior Software Engineer and Team Lead

Centeva

📅 01/2014 📍 Logan, Utah

Centeva helps the federal government by delivering quality custom software for some of the world's most complex problems.

- Building and supporting multiple large scale applications using various technologies including Angular, ASP.Net, C#, Entity Framework
- Leading development teams of various sizes and experience levels
- Taking the lead in helping to build a culture by organizing training programs and conferences as well as conducting formal coaching

Co-Founder and CEO

Pulse For Good

📅 10/2017 📍 Logan, Utah

Pulse helps homeless service providers improve by gathering satisfaction data from homeless individuals about the services offered to them.

- From idea to profitable in a year of moonlighting.
- Developed the initial feedback system using Firebase and Angular, eventually migrated to .Net Core.
- Gathered over 3000 feedback submissions in the last six months
- Worked to help improve the effectiveness of services offered to the homeless population

Software Developer

Novaqual

📅 01/2013 - 01/2014 📍 Logan, Utah

Startup focused on continuous improvement and quality management software

- Built applications to help monitor and control assembly lines
- Started a commercial product to help guide companies through the ISO certification process

Developer

AlsSports.com

📅 2009 - 2013 📍 Logan, Utah

Northern Utah sporting goods retailer and online distributor

- Helped build and maintain the online presence of Als.com
- Managed transition to mobile friendly site
- Conducted email marketing and social media for brand

MOST PROUD OF

Leading a Development Team

Helping others to achieve more collectively than they can individually is amazing!

Conference Organization

Organized and presented at multiple technical conferences sponsored by Centeva

Pulse For Good

Built a company that's using technology to help the homeless
